- Get better at your job
- Get better job prospects
- Get paid while you're learning

What's in it for your employer?

- Better health & safety
- Better productivity
- Better profitability
- Better performance

**EXITO**

INDUSTRY TRAINING ORGANISATION

THE NATIONAL QUALIFICATION FOR SKILLED MINERS LOOKING TO WORK AS A MINES RESCUE BRIGADESMAN

EXITO is the Industry Training Organisation for the Extractive Industry. Industry Training is a great way to get new skills, get a national qualification and get paid all at the same time.

This National Certificate is a nationally recognised qualification which has been developed by EXITO in partnership with key industry experts to meet the needs of employees working in this type of role.

When you enrol in an EXITO national qualification, you become an EXITO trainee. Training is mostly done 'on-job' which means that you will learn new skills and knowledge from the people that you work with or from on-job trainers. When you need off-job training for specialist skills or theory (eg first aid) EXITO will help to organise this for you with an Accredited Training Provider.

All national qualifications are made up of unit standards, which describe what you need to know and be able to do in order to show that you are competent in a particular skill area. Each unit standard has a credit value, which is based on how much time is needed to become competent. One credit equates to approximately 10 learning and assessment hours.

This National Certificate has compulsory units that you must do and elective units that you can choose from. This allows you and your employer to choose the elective units that meet the needs of your situation and workplace best.

When you are ready, an EXITO assessor will check that you are 'competent', ie that you have the skills and knowledge required for a particular unit standard.

There's no set timeframe so you can learn at your own pace as long as you achieve a minimum of 20 credits per year. We can also take your existing skills and knowledge into account which means that you could complete the qualification faster than you think! Industry Training offers you a world of opportunities so find out more about what it can do for you.

COMPULSORY: The following standards are required

UNIT	UNIT TITLE	LEVEL	CREDITS
17279	Demonstrate knowledge of the coordinated incident management system (CIMS)	2	2
3271	Suppress fire with hand extinguishers and fixed hose reels	2	1
